

David R. Wilson

**References to support inclusion in modern
foreign languages with information and
communications technologies**

Newcastle upon Tyne

David R. Wilson teaches French, German and learners with special educational needs at Harton Technology College in South Shields.

In 1996 a project report entitled *Appropriateness matters: special educational needs policy-making in a secondary school modern languages department* was submitted to the Open University in partial fulfilment of the requirements of the Advanced Diploma in Special Needs in Education. Since it first appeared as an appendix to this assignment, the *Bibliography of modern foreign languages and special educational needs* has undergone many revisions and expansions. The present publication is based on the most recent edition of this bibliography.
